that and that will not help me with Bryan. It will not help me with Bryan Memorial. And I don't like to feel like I'm having to replay the election that we had in May that, more or less, got rid of the issue in the city of Lincoln. So I just wanted to state those things so you understand where I'm coming from. And I'm trying to keep my sense of humor about the bill because originally, as I say, it was just a simple little bill with one thing in it. Now it has a lot of things in it, and a lot of elements that may or may not be good. Some of them probably are. Some of them probably are not. But we must, I think, keep our balance and our outlook here that we want to be sure that all the hospitals, all the health care units, long-term, everything, in the city of...in the state of Nebraska come out. I just want you to know that I don't know how I'm going to vote, even at the end now, if these things remain like...as they are now. Thank you.

SENATOR BRASHEAR: Thank you, Senator Crosby. Senator Wesely. That won't be necessary, Senator Wesely, yours is the last light. Senator Witek, to close on AM1437.

SENATOR WITEK: Well, this has been a learning experience on this bill. It's funny how you can have the votes to move something, plenty of support, and not be able to get to it. I understand that I cannot amend amendment 1437, and I'm not quite sure why that should be so, but it is the Chair's decision, and I was not able to overrule the Chair. But I think people should take note that should that happen at a later date, that we have
